### CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

#### 6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Internal organizational structure and decision making processes The institution follows a democratic and participatory mode of governance with all stakeholders participating actively in its administration. The major bodies entrusted with the governance of the University are: the administrative body comprising the Vice Chancellor, Registrar and the Rector and the Executive Council with nominated members. The latter largely attends to policy matters while the former takes care of the day to day running of the University. Both the bodies

have adequate representation from the stakeholders the sponsors, the faculty, external experts and ex officio members. While matters of policy and governance are taken care of by these two bodies, academic matters are approved by the Academic Council which, again, has adequate representation from the stakeholders associated with academic matters. Decision making is decentralized at different levels too: the level of Departmental Heads, Deans of Schools, Directors of Centers, the Dean Academic Affairs, Dean Students' Affairs, Cultural Coordinator, Research Council, the Controller of Examinations, the Finance Officer, the Registrar and the Vice Chancellor. Frequent meetings are held at all these levels to ensure a seamless and hierarchical process. Further, staff meetings are held every month, meetings of Heads of Departments with Vice Chancellor are also held every month, Boards of Studies meet as required, review meetings are held after every major event. Every process in the University has been mapped, and SOPs have been evolved to test them and operationalize them. There are also other smaller structures built for the overall scheme of things that take care of other organizational matters, such as AntiRagging Cell, Grievance Redressal Cell, Hostel Committee etc which also play their own role in ensuring a smooth administration in the University. Perhaps, the most outstanding feature of the internal organization is the accessibility afforded to everyone in the University to interact with all officials of the University. Grievance Redressal There is a graded system in place for airing and ventilating grievances both for the staff and the students. Students • The students have their class representatives and the Student's Union to address complaints as the first level. • At the second level, they can approach their mentors and Heads of Departments who take care of student relations and complaints. • There is also a 'Suggestion Box' and a 'Complaint Box' in major buildings on the campus that is regularly attended to.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

## 6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
<p>Research and Development</p>	<p>University constituted Department Research committee (DRC) and University Research Committee (URC) to facilitate and monitor research programs. The faculty and the research scholars are encouraged to attend training programmes, seminars conferences to abreast the recent trends in science and technology. A few departments have been recognized under UGCSAP, DBT, etc. in recognition of their research contributions. The university has well equipped laboratories and research centers for undertaking research. Central instrumentation facility is available for faculty and students to carry out advanced research. The University has provision for sabbatical leave/ study leave etc to encourage the faculty to pursue advanced research in universities / research organizations in India and abroad. A good number of faculty members have collaboration with</p>

national and international research institutes/ universities. The progress of the research scholars is evaluated once in every six months. It is mandatory on the part of research scholars to publish minimum two papers in National or international reputed journals before final submission of Ph.D thesis. The teaching staff are encouraged to apply for major and minor research projects and inter disciplinary research is also promoted. The teachers have undertaken research on a range of themes and have published in leading journals and also presented papers in numerous conferences/seminars. Reputed subject experts are invited to deliver lectures and interact with staff and research scholars under UGC visiting professors/Fellows scheme. The departments organize seminars/conferences/ workshops to motivate and inculcate research aptitude among the staff and research scholars. Few departments are involved in consultancy. Many faculty members and research students received awards for their research presentations and most of the faculty members are serving as members in editorial boards of journals. The university has initiated antiplagiarism policy and no case of plagiarism has been reported till date.

Curriculum Development

The BOS strictly adheres to the UGC guidelines and other instructions relating to curriculum design. The experienced faculty members are appointed in the Board of Studies and the syllabi of the concerned departments are reviewed and revised once in every three year. To design the curriculum aspects the team of external experts from the industries, varied institutional members and two meritorious students from the final year will be involved in the process of curriculum development and enrichment keeping in view of the adequate scope of emerging thrust areas and Industry needs. Departments in the university strictly follow the (CBCS) pattern. In view of this, the III Semester students are allowed to opt two papers from the internal electives and one paper from external electives offered by other departments. To improve and enhance computer skills and communication

skills among the students the Foundation course in Computer Applications (FCA) is offered to all the II semester PG students and communication English is offered to all PG I semester students of SPMVV and for all the (Practical) examination is conducted by the respective Departments in the University. Feedbacks from Alumni, Industry Experts, and Visiting Faculties are also taken as inputs for the enrichment of curriculum.

Library, ICT and Physical Infrastructure / Instrumentation

Central library is situated in the midst of the academic complex of the University with WiFi and INFLIBNET facilities. It is the hub of all the academic activities of the University and provides comprehensive access to books, journals, theses and dissertations, reports, surveys etc. covering diverse disciplines.

University has also subscribed to different resources including Science Direct Journals for easy access to the advanced scientific information. The issue and return transactions are facilitated through bar coding, using 'Bar Code Scanner'. The faculties are encouraged to prepare online course material in the form of Modules for each unit and have access to various class work material resources through SPMVV Internet Connectivity 24 7. The University has well established ICT enabled facilities for teaching learning process such as WiFi enabled campus, Smart Classes, digital media, Interactive videos, Recorded Video Conferencing lectures, Computers with internet facility, Teleconference facilities etc. Students are exposed to various ICT Programmes like Spoken Tutorials of IIT Bombay, NPTEL of IIT Madras and online MOOCs courses. All the buildings are under the electronic surveillance. Necessary infrastructural facilities for personal hygiene, sanitation, accommodation and academic programmes are available on the campus. The University has necessary facilities for cocurricular and extracurricular activities for playing indoor and outdoor games, sports and cultural events, gymnasium, yoga and meditation.

For safe and pure drinking water, separate RO system is installed in the campus. Modern cooking facilities are available in hostel blocks. For

cleanliness and maintenance of wash rooms and toilets, SULABH personnel are engaged. Facilities such as Gym, Cafeteria, Health center, Child Care Centre are provided in the campus. DST Curie Central Instrumentation facility is available in the campus along with individual instrumentation labs in science and social sciences. TBI provides latest IoT and Life Science equipment to produce innovative products. Equipment for research is also procured from various projects. Separate budget is allocated for maintenance of equipment.

**Human Resource Management**

Open advertisement is given to recruit the staff belonging to all categories in accordance with the recruitment rules of the University. Statutory reservations are followed to the persons belonging to the SC/ST/OBC and Physically Challenged categories in accordance with the norms of the GOI and by maintaining rosters. Most of our faculty are extending their services to the university in various capacities like Dean Development, Convener Central Purchase Committee, Director IGNOU study center, Member Secretary Institutional Ethics Committee, Coordinator Career Counseling Cell, Placement officer, Coordinator Skill Development Center, Nodal Officer BIONEST, Members in International Relations Desk, RWTP, TBI, and BIONEST and other coordinating officers thus contributing to corporate life on the one hand and extending their cooperation and support for the smooth running of the university on the other.

**Industry Interaction / Collaboration**

Concerted effort towards enhancement of Industry interaction in terms of engagement with industries through collaborative research, Guest lectures by the professionals from the industries are organized for the benefit of students not only to enhance their knowledge and real time exposure which contributes to their holistic development. Students do their Internship in various industries to gain industrial experience. Industrial training program in the IV semester, which is part of course curriculum gives the student Industrial/Research exposure to prepare them to launch their career. One expert from the

industry is included in the BOS in the concerned departments to offer their suggestions in designing the curriculum based on the industrial requirements.

#### Teaching and Learning

Academic calendar and teaching plans are being followed as per the direction of the University. Department wise orientation and induction programmes are being organized to the students during first week of reopening. In addition, foundation courses are being offered by the respective departments for the first year students after their admission to improve their grammar, language, communication skills/life skills and basic knowledge about their courses. Most of the departments are well equipped with modern Educational technology teaching aids (PC/Printer/UPS/LCD projector /Interactive Board/Visualiser and internet connectivity). In addition, Institution website (spmvv.ac.in) supplements teaching learning process. University organizes seminars, workshops, conferences, guest lectures for skill development among students. Cross cutting issues like environment, gender sensitivity and human values and professional ethics are being addressed by the University through curricular and cocurricular activities. University organizes coaching for NET and Entry into service programmes under UGC assistance. Measures are being taken to support both slow and advanced learners. Network Resource Centre is also in operation wherein both the students and staff use internet facility by adopting technology based teaching process through ppts, OHPs, handouts, virtual labs and simulations during class room teaching. Blended learning process is adopted in the class room teaching. Academic calendar is strictly adhered to with a minimum of 90 working days per semester.

Mapping the student outcomes/instructional objectives and program educational objectives and uploading the lesson plan and question paper keys in the student's portal. Student centric methods, such as experiential learning, participative learning and problem solving methodologies are being adopted for enhancing learning experiences. Practical classes are conducted in

science departments for hands on experience of the students in the laboratory under the supervision of the concerned faculty. The faculty members foster learning environment by teaching through demonstration, visual aids, MOOCS, interactive learning, case studies and conducting quizzes on specific topics. Students are encouraged to participate in seminars, guest lectures, workshops, field trips and industrial visits to enhance the experiential learning and to enrich their learning experience.

**Examination and Evaluation**

Academic calendar is strictly followed to complete course curriculum and timely conduct of Examinations. In addition to semester end examinations, Internal assessment is carried out to ensure complete understanding of each topic by the students. The evaluation of internal examinations is done by faculty members and is purely transparent. The institution regularly monitors the progress and performance of the students through formative evaluation system. The performance of the students will be gauged by summative evaluation of theory and practical examination. Analysis of students' results/ achievements shows constant positive growth in their performance. Transparent examination related grievances by the College and also university

**Admission of Students**

Admissions to various programmes of study are advertised in daily newspapers in English and Telugu and also through the social media. Wide publicity is given by sending Posters with the details of courses offered by the university to all degree colleges located in all regions of the state. The information regarding the number of regular seats in each course, the fee structure, the admission procedure is posted on the University website. Admissions are made through an entrance test. The Directorate of admissions of the University conducts the admissions. The admission process of the university is transparent. The reservation policy and the norms set by respective authorities/bodies of the state and nation are strictly adhered to the admission process is revised annually by the authorities of the University

for modifying the eligibility criterion, enhancement of the structure, modifications to improve the process of admissions etc. Admission process ensures access and equity considering the applicable norms. Rule of reservation is followed in admissions for SC, ST Physically challenged students. Admissions into professional courses like MCA, MBA, MMM, Physical Education, Law, Pharmacy, Nursing and Engineering courses through respective National/State level bodies and remaining courses are done through SPMVVCET.

6.2.2 – Implementation of e-governance in areas of operations:

E-governance area	Details
Examination	<p>Academic calendar is strictly followed to complete course curriculum and conduct of Examination. The calendar provides information regarding courses for the semester, admission process, and important events in the academic year, dates of commencement of internal and external University examinations, details of curricular and extracurricular activities, list of holidays, and the total number of working days. The University adopts a Continuous Internal Evaluation (CIE) system. Finance and Accounts

All Accounts are audited by Qualified Auditors every year during the month of March. Mobilization of funds is procedural and is utilized for the benefit of students, so as to provide them with an education system of excellence. The institution has a predefined mechanism for internal and external audit. Internal audit is conducted by the Accounts Section and Accountant of the University as per advice of the external State auditor. Once a year, External statutory audit

is conducted by the associate of Chartered Accountant. At the end of every academic year, stock of every department is verified by the team of faculty members from other departments who act as internal auditors. The qualified remarks if any, given by the auditor are taken into consideration for future course of action.

Student Admission and Support

Transparent and merit based admission process is conducted as per University guidelines. Wide publicity is given through circulating prospectus, issuing press notes in mainstream media, posting information on social media and the University website. The Dean of Admission committee reviews and monitors the admission process. Weightage is given for sports, NCC, Mountaineering, NSS etc. and cocurricular activities in the admission process. Adherence to Government policy for admission of students belonging to diverse economic backgrounds such as SC, ST, BC, Minority, Differently abled students and scholarships offered by Government to economically and socially weaker sections and differentlyabled students, is a strict commitment. Students are encouraged to approach student advisors and mentors to seek guidance on professional as well as personal issues and this helps them to improve their performance in academics and also severs to solve several personal problems with minimum stress. It has also helped them to improve their problem solving skills. Each school organizes a student faculty committee meeting every semester to facilitate students to have open discussions with the faculty about their concerns/problems and receive feedback on the same. For every course and stream, the school assigns student advisors to students. They monitor the progress of students on a regular basis. The University organizes sensitization programmes for staff and students on issues related to gender social inclusion and environment etc. All departments have been advised to form mentoring groups to counsel students. Placement and Career guidance cell in the University is active in organizing campus selections, interaction with industry persons, and

providing career guidance to students.

- Solar systems for water heating and street lights.
- Institute has implemented networking of administration all the departments with which the paper waste is limited.
- Organic waste management system in the hostels to treat the sewage generated from kitchens that is used as manure in gardens and sink pits to collect rain water
- Tree plantation is carried out during monsoon period every year to plant new or to replace the deceased plants.
- Use of Energy Efficient Equipment

## 7.2 – Best Practices

#### 7.2.1 – Describe at least two institutional best practices

**Best Practice: 1. Curriculum Redesign** The University believes that the curriculum should be dynamic (i.e. adaptive to external changes), flexible (offer enough options for students), and customizable (i.e. teachers can bring in their expertise and adapt it to a context). With this in mind, SPMVV enables continual assessment and frequent revision of the curriculum without losing its rigor. Feedback from students, teachers, employers, and external experts from academia / industry is incorporated into the curriculum at different levels of granularity at different intervals of time ensuring the curriculum is robust and nimble. SPMVV is a studentcentric University, enabling immediate employability of students while ensuring that they acquire lifelong learning and adaptation skills makes it challenging to decide on content and pedagogy. Despite these constraints and the challenges SPMVV has managed to ensure that curricular changes are carried out in a timely and rigorous manner. Several departments revised and strengthen the curriculum in terms of its courses and contents. Pedagogic aspects were also improved across the board. Specific highlights of the new curriculum include more elective choices for students, increased emphasis on practical / handson learning, increased emphasis on open assessment practices such as takehome assignments, seminars, literature survey, team work and other aspects and introduction of MOOC courses. The university curriculum is thus continuously being innovated upon and refreshed to reflect the latest developments in technology and trends within industry. Best

Practice: 2. Life Skills Training for new entrants The University provides a scheduled Life Skills Training Program for all the new incumbents. Students are required to attend this one week training program that is conducted by a group of trained teachers who focus upon several aspects of life skills and personality development. Since a large number of students are from the rural areas of Andhra Pradesh, this program helps them to overcome the hurdles faced in moving on to a system of higher education that requires not only academic skills but also several of the important skills in life that helps them to adapt to a new system of living and learning. Due to requests from students this program is being continued on every third Saturday during the first semester. Best Practice: 3. Compulsory core courses on English Language, Computer Skills and Gender Sensitivity. Being a women's institution where a majority of students are from rural Andhra Pradesh, compulsory courses in Communicative English, Computer Applications and Gender Sensitivity is offered to students of all courses in the first, second and third semesters to help them learn some of the fundamental skills required along with the subjects of their study in order to facilitate a more holistic learning and skill development

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The mission statement of the University is 'knowledge leads to emancipation of women'. Every activity and initiative of the institution focuses on this mission statement. The design and implementation of the curriculum focuses in latest developments in the area of study and is based on the emerging demands of the job market. The mentormentee practice is efficient in which students in each course are assigned to their mentors (teachers from the same department) who continuously interact and monitor the academic progress of the student. This practice is of enormous help to the students both academically and in managing their personal lives. Over the past year, the academic performance of the students has improved they have obtained greater skills of overcoming personal problems and hurdles thereby enjoying a better physical and mental health as well as academic progress. The research activities in the University contribute to both knowledge in academic field and also innovations are taken to the community, especially to the women by the various extension activities of departments and the NSS. Research projects focus on addressing the contemporary issues of women in society. Women in the community and adopted villages are empowered in education, health, legal provisions, innovations and technology by the various departments of the University. The Institution has a very strong network with the women in communities residing around the University. The University empowers them through awareness programs, workshops and interactive sessions. The Centre for Women's Studies conducts programs every week throughout the year. Department of Home Science, Education, Law, Social Work, Women's Studies, collaborate with other departments as and when required to empower the women in the community through various activities all through the year. The Institution is also liasoning between the Transgender Community and the GO's and NGO's and Promoting Gender Champion Clubs. Girls Selfdefence Training is given to all students to empower them to deal with crisis situations. Yoga, Taekwondo and other physical self defence classes are conducted by the Department of Physical Education. Gender Sensitization and Equality is a foundation course taken by all students in the III semester. Career guidance programs are also arranged to guide students of the community

by arranging camps in nearby villages. Free legal guidance cell for women, health camps for community women, career counseling centre, committee to deal with sexual harassment are some of the best practices aiding in well being of women.

### 8.Future Plans of Actions for Next Academic Year

• We at Sri Padmavati Mahila Visvavidyalayam, Tirupati strongly believe that education is a vibrant process where in the needs of students continue to be met and they are prepared to face the ever changing world. Thus the emphasis for quality education and efforts to sustain the reputation of the university will continue. • Curriculum of the courses will be reviewed and a data base will be created consisting of information related to the expected manpower needs in the industry in the next 510 years. If, need be, curriculum will be revised to meet the industrial needs. • The care and nurture provided by way of 'mentoring' will continue to be the corner stone for the integrated development of the students. The induction programme focusing on 'life skills acquisition' will further the efforts of the university authorities to shape the young spmvvians to face the challenges of the outside world. • A strong emphasis will be laid on promoting research culture among the young teaching faculty. Teachers with minimum experience will be encouraged to seek the guidance the mentoring of the senior faculty and apply for research projects under the various government schemes. The existing research and consultancy centres in the university will screen the proposals presented by the young faculty and provide a critical appraisal of the same. Alongside, the existing research facilities and projects in progress will continue to add to the research endeavors of the university • Efforts will be made to enhance the facilities for the boarders. The extra dining hall being built will be made operation at the beginning of the academic year. Extra floors on the .... hostel block will ease the existing congestion in the hostel rooms. • University will continue its efforts in its community engagement initiatives. 'Swatch Bharath', 'Unnath Bharath Abhiyan' 'abandonment of one use plastic' and many other environment friendly activities will be on the fore of community outreach activities. The green campus will reverberate with the fitness activities for the students. • The 150th birthday of Mahatma Gandhi will be observed with fervor and the Gandhian Square in the campus will be officially inaugurated. • University will begin to gear itself to meet the needs for the NAAC appraisal in 2021.Faculty will be trained on the recent changes in the NAAC protocols to enable for smooth transition to the online mode of evaluation for NAAC. • Meanwhile, the automation initiatives will continue and the paper less administration will be given further impetus during this academic year. • Being a forbearer for Women empowerment , university will continue its efforts of gender sensitization, self protection and awareness activities. • The University intends to introduce Joint academic programs with industries of relevance and institutions of importance at national and international levels. It is also working to strengthen the number of International students intake. More international and national research proposals will be submitted, in interdisciplinary areas. Staff will apply for projects to various funding agencies like UGC, DBT, DST, AYUSH amp AICTE
