**7. feedback on our University :** One of the Key reasons for joining Women's Studies department for Ph.D, in spite of having done post graduation in Food Science & Nutrition was to learn, help and contribute to growth of women in our male dominated society. The course helped me in gaining confidence and also made me understand that I was not alone in this society facing tough situations. The University not only improved my confidence, knowledge but also made me a more resilient person.
