- To develop the ability to observe, understand, and respond appropriately to common signs of discomfort, illness, and dependency.
- To prepare learners to provide safe, supportive, and compassionate care to individuals who are terminally and chronically ill persons in hospitals, at home, and other institutional settings.
- To strengthen communication skills needed to respond sensitively to the psychosocial and emotional needs of patients and family members.

2. P.G. DIPLOMA in DATA SCIENCE AND MACHINE LEARNING

Duration	: 1 Year (Two Semester)
No. of Seats	: 60
Eligibility	: Bachelor (3/4 Years) Degree in any branch Mathematics, Statistics and Engineering.
Course Fee	: Rs.1,00,000/-

A Post Graduate Diploma in Data Science and Machine Learning is an intensive, professional-level program designed to prepare graduates and working professionals for careers in Artificial Intelligence (AI), Big Data, and predictive analysis.

The two-semester curriculum is structured to build a rigorous foundation in both theoretical concepts and hands-on laboratory work. During the first semester, students focus on foundational topics including statistical methods for hypothesis testing, mathematical concepts for artificial intelligence and machine learning, and introductory courses in AI and ML, alongside their first practical laboratory session. The second semester advances into core predictive and analytical techniques, covering regression models, multivariate big data analysis, and deep learning neural networks. This final semester culminates with two additional dedicated data science labs to ensure extensive practical implementation of the theoretical concepts learned throughout the program.
