**MISSION STATEMENT**  
To work towards bringing transformation of the whole population of the country, so that they can lead peaceful, powerful, courageous, whole and complete life through self education by going beyond the self-limiting constraints imposed by the past. The main emphasis is to bring transformation in Teachers & Students, so that they can turn out to be statesman. We aim to make everyone realize the ultimate truth that learning and giving are the absolute true nature of the human being

**Sathya Sodhana – Sakthi Sadhana**  
*Empowerment through Self Education*

We have conducted thousands of "Sathya Sodhana – Sakthi Sadhana" sessions all over A.P & Telangana, and have created awareness in lakhs of people regarding their True Nature of Learning and Giving.

We have conducted numerous sessions in SVETA, TTD, Hindu Dharma Prachara Parishad Programs (HDPPP), Saraswati Shishu Mandirs, Forest & police officers, Government Teachers, Vedic University, Sanskrit Vidhya Peetham, DRDO schools, many Vedapathashalas, including Tirumala, CA & IAS Students, Rajiv Vidhya Mission, Reddy Foundation, HIV Patients & Counselors, and many more.

As a first priority, we have concentrated on B.ed, D.ed, TPT colleges so that the teacher's can then pass on this knowledge to large number of students. In addition we are conducting workshops in many government and Non government organization, tribal areas, schools and colleges. We are working to bring transformation from the roots of the society, by empowering lives through Workshops / Seminars free of cost. Conducted Over 2000 above workshops in the name of "EMPOWERMENT THROUGH SELF EDUCATION".

<b>Date</b>	24 <sup>th</sup> October 2016 to 19 November 2016
<b>Venue</b>	<b>School of Engineering &amp; Technology, SPMVV</b>
<b>Total No of Students</b>	254
<b>Report</b>	<p>School of Engineering and Technology organized one month training program on Computational Thinking &amp; Problem solving skills, sponsored by APSSDC.</p> <p>The biggest benefit of computational thinking is how it enables real-world problem solving. Computational thinking is a problem-solving process in which the last step is expressing the solution so that it can be executed on a computer. Breaking down problems into smaller parts can make complicated challenges more manageable. This enables other computational thinking elements to be applied more effectively to complex challenges. The solutions to the smaller problems are then combined to solve the original, larger problem.</p> <p>The resource persons from APSSDC covered the concepts of basic and advance Mathematics and taught the students in understanding the steps involved in the problem solving and getting the right solution for the right problem in the mathematics A total number of 255 students from the school of Engineering and technology, SPMVV have actively participated in this one month training program.</p>

<b>Report</b>	<p>Organized one day training program by Harvard Business School to B.Tech final year students.</p> <p>LinkedIn enables you to network with people and professional organizations in your industry. This is a great way to stay up to date with the latest developments, and to share information with others in your field. Having a LinkedIn account as a student proves that you are dedicated to pursuing a career. By being specific in your summary and connecting with people in the field that you'd like to end up in, you prove that you're putting in the time and effort required to succeed in your chosen career.</p> <p>Harvard Business School along with Stanford University are engaging in a research project aimed to increase employ-ability of engineering graduates in Andhra Pradesh. On-behalf of Harvard Business School Professor Prithvi Raj Choudhury addressed the students about employability and necessary skills required to bridge the gap between current industry requirements.</p>

Dear Professor Vidyavathi,

Please treat this email as the official request for conducting LinkedIn Training Program at your college on **28th October, 1 pm** (time is tentative and we could start the training at once all the students get available after their exam)

Professor Prithvi Raj and Professor Melanie copied are routing this project from Harvard and Stanford Business Schools respectively.

Also CCAet is the madam Sumita Dawa ( Secretary of AP Education ) and Sabha ( Associate with AP Government ) who are helping with this project.

**The details of the training program are as below.**

Harvard Business School along with Stanford University are engaging in a research project aimed to increase employability of engineering graduates in Andhra Pradesh. Sumita Dawa is coordinating the project from Govt Of AP. As a part of this project we have been conducting treatments at various colleges to measure its impact on the placement activities for the year.

As a part of Social Networking treatment, we are conducting LinkedIn trainings at SVU, SRAI and SPMVV Colleges to students to enable them contact their alums, recruits and relevant others. All the eligible 4th year students are required to fill a survey and join a LinkedIn group as shared earlier. We would select a few students out of the eligible population and offer them general linked in training and also premium linked in membership ( costing Rs. 500 per student )

**I shall share the selected students list for general training and Premium Training by tomorrow.**  
**Attendance is mandatory for all the selected students. Please help with this aspect.**

**Logistics Required for the training are as below.**

- 1) Conference room that could accommodate about 100 students - With Presentation Screens, mikes and internet facility to Presentors.
- 2) Computer Lab that could accommodate about 100 students ( This is needed for the practical lab purpose )

We request your cooperation during the training to make it a success.

Thanks
