**QUESTION 21**

You are required to fix all logical errors in the given code. You can click on Compile & Run anytime to check the compilation/execution status of the program. You can use printf() to debug your code. The submitted code should be logically/syntactically correct and pass all testcases. Do not write the main() function as it is not required. Code Approach: For this question, you will need to correct the given implementation. We do not expect you to modify the approach or incorporate any additional library methods. The following code will compile successfully but there is logical error. Look the code and modify so that we can get respective output.

The screenshot shows a GotoMeeting interface. At the top, it says "Talking: xplore taining" and "View Everyone". There are 66 participants. A chat window on the right shows messages from "K to Everyone" at 9:16 AM, with a count of -1 and 0. The main screen displays a math problem: "Choose the correct option. Find n if  $(2^{228}/2^n) = 512$ ". The options are 219, 218, 237, and "None of the above". Handwritten work shows the calculation:  $2^{228} / 2^n = 512$ ,  $2^{228} = 2^n \times 2^9$ ,  $2^{228} = 2^{n+9}$ ,  $228 = n+9$ ,  $n = 228 - 9$ ,  $n = 219$ . The meeting controls at the bottom include "Unmute yourself", "Screen", and "Leave". The Windows taskbar at the bottom shows the time as 9:35 AM on 1/9/2021.

<b>Report</b>	<p>Organised Cognizant company specific training program for final year B.Tech students of Batch 2022 through virtual mode.</p> <p>The topic includes:</p> <p><b>TIPS FOR JOB INTERVIEWS TO STUDENTS :</b></p> <p>There are two aspects to keep in mind as an interviewee, first to find out how well the job and the organization suits you; second and more important goal is how to get selection. The following tips, guidelines and insight to interviews may help you to put in proper efforts and performance to attain the above goals.</p> <p><b>1. SELF ASSESSMENT</b></p> <p>The first preparation that you can make for an employment interview is to give some serious thought about yourself by taking stock of your needs, interests and preferred job outcomes. Also, take stock of your strengths and weaknesses. Reflect on your goals and ambitions. A good starting point would be to prepare a detailed Resume, a comprehensive and well-organized record of your accomplishments. As you prepare it, you will have to review your academic qualifications, knowledge, skills, experiences and achievements.</p> <p><b>2. JOB ANALYSIS</b></p> <p>The next step is to analyze the job to find out whether the organization and the job provides you the right opportunities keeping in mind your personal capabilities as well as your career goals. Listed below are certain qualities, which are generally assessed in interviews with the priorities and</p>

weightages, varying with the job.

### **Academic**

- Good scholastic record
- Preparation for interview
- Formulated long range goals & objectives

### **Personality**

- Enthusiasm
- Self confidence
- Pleasant personality
- Emotional stability
- Poise in the interview
- Aggressiveness & Initiative
- Efficiency
- Moral standards
- Humility
- Good health
- Extracurricular activities

### **Communication & Leadership qualities**

- Communication skills
- Writing skills
- Leadership potential
- Managerial skills
- Interest in people

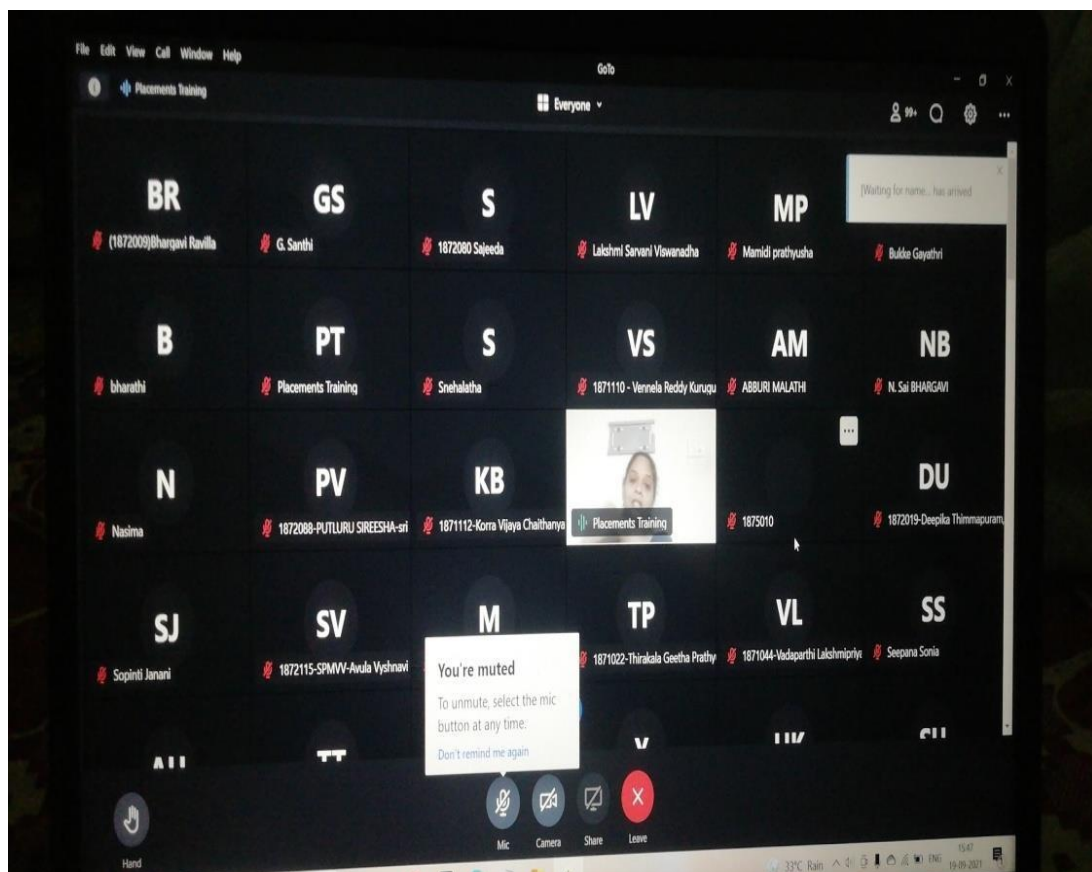

### **Preparation for the Interview**

#### 4.1 Familiarity with the interview process

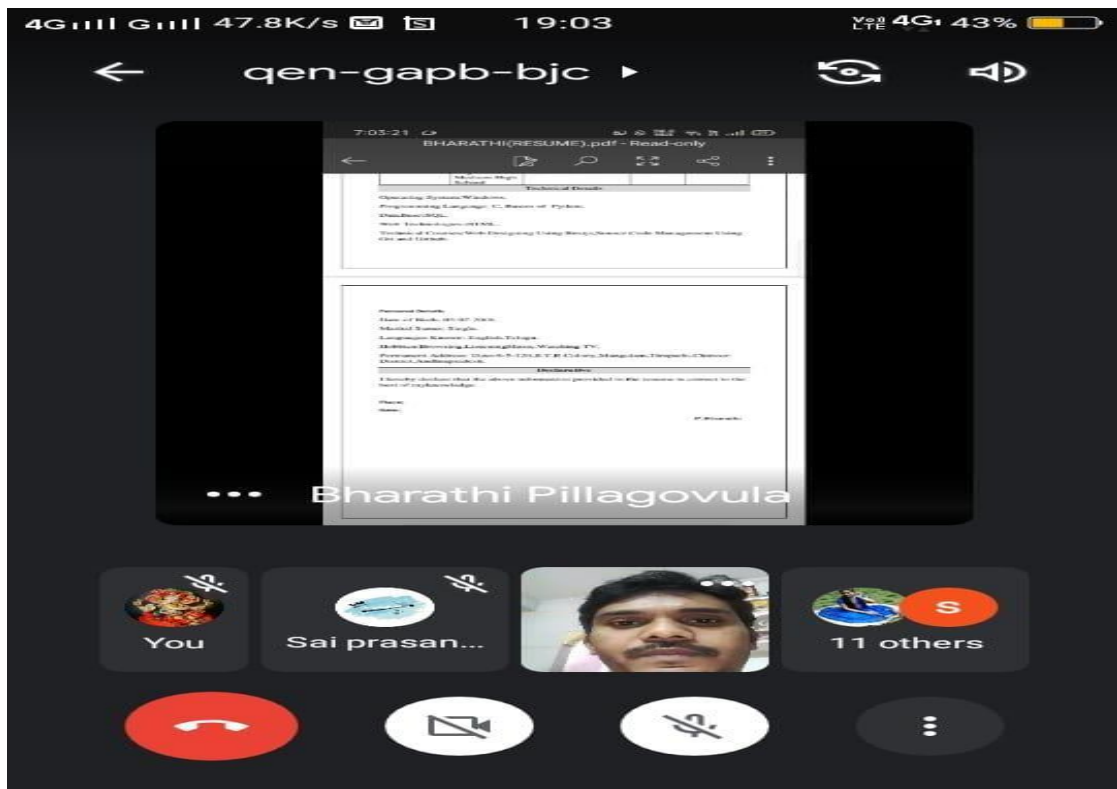

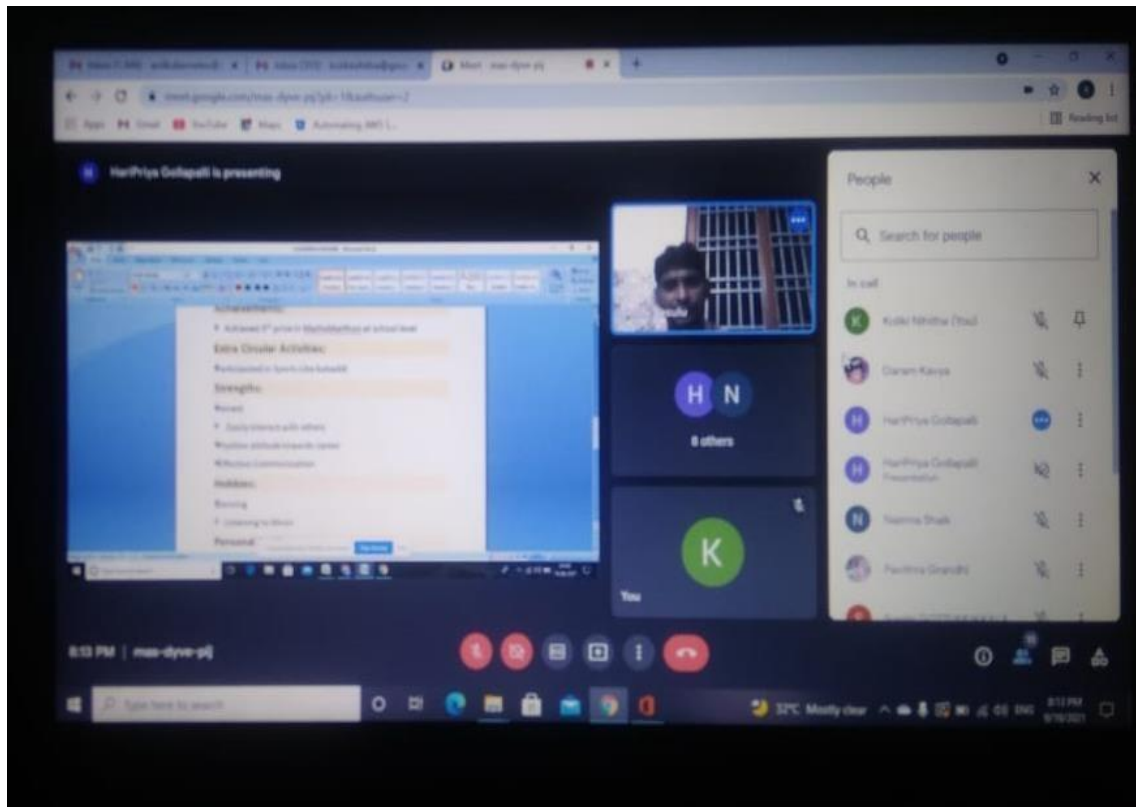

You will be more confident in the interview, if you prepare well in advance for the type of questions and the areas of specialization that are likely to be tested in the interviews. Personnel selection procedures vary

greatly depending on the organization, the type of job and level of the job. Generally, the job selection is made by anyone or a combination of the following.

- A. Written Test (aptitude test, Logical Reasoning test, Quantitative test and Technical Test)
- B. Technical Test (Programming Round)
- C. SWAR Round (Communication proficiency)
- D. Group Discussions
- E. Technical Interview
- F. Psychometric Test
- G. HR Interview
